

## Convective Weather for Pilots

Much of what pilots are taught about convective weather is incomplete, and in some cases incorrect. This course covers convective and severe weather, and material many pilots are not familiar with. This material will give pilots additional insight into the probability and likely severity of weather and how to avoid convective weather surprises. Part 1 covers convective weather factors and hazards. Part 2 will cover convective weather products. Part 3 covers getting good convective weather briefings. Class meets three (3) consecutive Thursday evenings.

**Directions:** Collin College is just east of Preston Road between Preston Park and Old Shepherd Pl. Check the monitor in the lobby for room number.

### A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.  
Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!
